LATHAM COMES WITHIN TWO MILES OF GOAL.

By Associated Press.

Sangatte, France, July 27.—Herbert Latham started to cross the English Channel in his monoplane today and had reached within two miles of the English shore, when his machine dropped into the sea.

Latham was rescued by a torpedo boat.

The distance across the channel is twenty-one miles. Latham had given out, earlier in the day that he proposed to fly from Calais across the channel, thence continuing the journey overland to London, eighty-five miles inland, thus eclipsing the recent exploit of Louis Bleriot. The accident prevented the accomplishment of either of these feats, but his record of flight is next to that made by Bleriot.

KANSAS CITY STOCK MARKET.

Kansas City Stock Yards, July 27.—There was an extraordinary run of quarantines at all the markets last week and prices declined 25 to 60 cents during the week. Thin steers lost 40 to 60 cents, and the better grades of steers closed 25 to 35 lower, cows and heifers 25 to 50 cents lower, calves irregular, but generally 25 to 50 lower for the week. The run was 979 car loads here, heaviest supply of quarantine cattle ever known at any market under normal conditions. The break in prices checked shipments for today's market, and arrivals foot up only 116 car loads. The run in the native division is also light today, and the result is an active, snappy market, with prices 10 to 25 cents higher. The quick rebound of the market, and the sharp contrast between conditions today and those existing last week, will probably draw out a better run later in the week, and the strength exhibited today promises a good market. Top steers today came from the feed lots of Stanfield Bros., Henrietta, Tex., a five car bunch weighing 1260 lbs at \$9.15. Some of the Russell steers from Hardy, brought \$4.70, other steers downwards to \$3.50, cows at \$3.00 to \$4.00, canners around \$2.75, bulls \$3.00 to \$3.60, calves \$4.50 to \$7.00. A good rain yesterday extending from Colorado to Illinois and from Nebraska to Oklahoma practically covering the entire corn belt, has put more life in the stocker and feeder trade, and is a factor in the strength shown by the market today.

The hog run last week was 35,000 head, considerably below normal even for this season, market 10 to 15 lower for the week. Run is 6000 today, market steady to strong, heavy hogs at \$7.80 to \$7.90, medium weights \$7.70 to \$7.90, weights below 200 lbs at \$7.50 to \$7.80, shippers were the main support of the market today, one buyer taking twelve doubles of light hogs, paying up to \$7.80 for them and another firm in the market for hogs from 210 to 240 lbs, paying \$7.80 to \$7.90 therefor. The advance guard of a large army of sows is appearing, having weaned the spring crop of pigs. These sows are on a more slippery footing than hogs showing quality, and only slimness of receipts protects them from the hatred of buyers now.

Fat muttons closed up on lambs a little more last week, and the margin between them is now considered more settled. Lambs are likely to exhibit some shakiness for another week or two, till the run of spring lambs from the south at eastern points is over. Run today is 6000, market weak on lambs, others steady. Top lambs are worth \$7.60, wethers and yearlings \$5.50, ewes \$5.25. Feeding stock is higher, lambs up to \$6.00, wethers \$4.50, breeding ewes \$5.25, yearling ewes around \$5.75, for choice stuff in each class.

Run of quarantines 116 cars yesterday market active and snappy, 10 to 15 higher than close of last week. Among sales were:
